

Chevrolet Avalanche, Showing Versatility and Functionality

Article by: Sarah McBride

The Chevrolet Avalanche is yet another astounding vehicle. It is versatile and innovative as a vehicle and also very function. This vehicle has been made available in the 1500 and the 2500 configurations. Each of these come with either a two wheel drive or a four wheel drive. Also made available for this vehicle are various trim levels which give interested parties the chance to purchase a Chevrolet Avalanche depending on their needs and preferences.

For this year, the Chevrolet Avalanche comes into the automobile scene bearing quite a few changes. It now holds a new design. The optional mirrors that were camper styled heated mirrors were deleted from the list. And in its place new folding and extending heated mirrors have been added. The rearview mirrors now hold a standard compass built into it. Now made standard for the Chevrolet Avalanche is the stability control system as well as a tire pressure monitoring system.

The Chevrolet Avalanche was actually introduced to the automotive market back in 2002. And after that, the rest could be considered history for it had become a popular vehicle. One of the reasons behind that is that the Chevrolet Avalanche has a very versatile set up. It is very multipurpose because of the Midgate system that this vehicle holds. This system allows the partition between the cab and the truck bed to be removed completely. By doing such, the floor space for load and cargo is extended. There is a removable protective cover found in the cargo bed and this assists and protects the cargo from the elements. There also are storage boxes that have been built into the sides of the bed. These offer additional cargo room.

As per safety, the Chevrolet Avalanche has been crafted containing standard safety equipment. The list includes four wheel antilock disc brakes, and the stability control system. For options, the front seat side air bags had been added in. Government crash tests provided proof as to what kind of safety this vehicle could bring. They gave the Chevrolet Avalanche three stars out of five on the criterion of driver protection in a frontal impact. The vehicle also earned four stars out of five for front passenger protection.

Parties interested in acquiring a Chevrolet Avalanche can choose from a wide range of color choices. The choices for exterior color are Sport Red Metallic, Victory Red, Sunburst Orange II Metallic, Sandstone Metallic, Dark Blue Metallic, Bermuda Blue Metallic, Summit White, Silver Birch Metallic, Dark Gray Metallic, and Black.
